SUPPLEMENTARY INFORMATION: On June 14, 2013, NOAA published a proposed rule in the **Federal Register** to revise the regulations for the boundary of the Thunder Bay National Marine Sanctuary (78 FR 35776). An accompanying draft environmental impact statement (DEIS) was also published (78 FR 35928). Public comments on the proposed rule and DEIS were solicited. Three public meetings on the proposed action were held on July 15-17, 2013 in Michigan. The public comment period was extended until October 18, 2013 (78 FR 49700) to gather more information on the applicability of U.S. Coast Guard and U.S. EPA regulations governing discharge of ballast water to the proposed expanded area. However, due to the government being closed for 16 days

during the public comment period, NOAA is re-opening the comment period for 30 days.

While the public is free to comment on any issue related to the

proposed action, NOAA is particularly interested in receiving input on the following topics:

1. Please explain current ballast management practices.

Identify, with specificity, all areas where ballast management occurs and under what circumstances.

2. Please explain how the proposed boundary expansion is expected to impact existing ballast management practices.

October 18, 2013

Daniel J. Basta,

Director,
